SUMMARY

Computer Science undergraduate specializing in Machine Learning and Generative AI. Experienced in building NLP platforms, data analytics dashboards, and predictive models. Proficient in leveraging languages like Java and python to design scalable, data-driven solutions.

PROJECTS

Legal Risk Scorer | *Python, Legal-BERT, Streamlit, SHAP* **2024**
Source Code | Live Demo

- Built an end-to-end legal risk scoring platform by fine-tuning **Legal-BERT** on CUAD clause data to classify contract language as low or high risk, accelerating contract review workflows.
- Designed a Streamlit interface for interactive clause analysis, contract-wide scanning, and transparent SHAP-based explanations.
- Validated the model at **81% accuracy** with a 0.81 weighted F1-score on 2,681 test examples.

Student Performance Prediction | *Python, Scikit-Learn, Flask* **2023 - 2024**
Source Code

- Engineered an end-to-end Machine Learning pipeline to predict student math scores using demographic and academic data, achieving **80% accuracy** in performance metrics.
- Implemented a modular project structure for data ingestion, feature transformation, and model training using scikit-learn, Pandas, and NumPy.
- Developed and deployed a user-friendly web application using **Flask**, enabling real-time predictions through an intuitive interface.

Blinkit Sales Analysis Dashboard | *Power BI, SQL, Pandas* **2023**
Source Code

- Developed a comprehensive dashboard in **Power BI** to analyze sales performance, tracking KPIs such as Total Sales ($1.20M) and Average Rating (3.9/5).
- Replicated data processing and analysis workflows using Python (Pandas, NumPy) and SQL to validate findings from the Kaggle dataset.
- Visualized key business metrics by segmenting sales by item fat content, type, and outlet location.

EDUCATION

Bachelor of Technology, Computer Science and Engineering **2023 – Present**
KiiT University Bhubaneswar, Odisha

Senior School Certificate Examination (12th) **2022**
D.P.S, Rourkela (Percentage: 80%) Odisha

Secondary School Examination (10th) **2020**
D.P.S, Rourkela (Percentage: 88%) Odisha

SKILLS

Languages: Java, Python, C, SQL
Frameworks & Tools: LangChain, Flask, Streamlit, Power BI, Pandas, NumPy, Scikit-learn
Databases & DevOps: MySQL, Docker, Git, GitHub
Concepts: Generative AI, RAG, Machine Learning, NLP, Data Structures & Algorithms (DSA)

CERTIFICATIONS

Docker Mastery: with Kubernetes + Swarm View Certificate
Comprehensive container orchestration and deployment by Docker Captain

Git and GitHub Specialization View Certificate
IBM Professional Certification via Coursera
